Follow this advice.

Quaker Oats is the best of all foods; it is also the cheapest. When such men as Prof. Fisher of Yale University and Sir James Crichton Browne, LL.D., F.R.S., of London spend the best parts of their lives in studying the great question of the nourishing and strengthening qualities of different foods, it is certain that their advice is absolutely safe to follow.

Professor Fisher found in his experiments for testing the strength and endurance of athletes that the meat eaters were exhausted long before the men who were fed on such food as Quaker Oats. The powers of endurance of the non-meat eaters were about eight times those of the meat eaters.

Sir James Crichton Browne says—eat more oatmeal, eat plenty of it and eat it frequently.

Packed in regular size packages, and hermetically sealed tins for hot climates.

SUNDAY IS SUNDAY.

"But, mamma, isn't it Sunday in the back yard too?"—Judge.

Ends Winter's Troubles.

To many, winter is a season of trouble. The frost bitten toes and fingers, chapped hands and lips, chilblains, cold sores, red and rough skins, prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healer of Burns, Bolls, Piles, Cuts, Bruises, Eczema and Sprains. Only 25c at all druggists.

Mrs. Flint always demanded instant and unquestioned obedience of her children. One afternoon when a storm came up she sent her son up to close the trap door leading to the roof.

"But, mother—" said John.

"John I told you to shut the trap door."

"Yes, but mother—" "John, shut that trap door."

"All right, mother, if you say so, but—" "John."

John slowly climbed the stairs and shut the trap door. The storm howled and raged. Two hours later the family gathered for tea. When the meal was half over Aunt Mary had not appeared, and Mrs. Flint started an investigation. She did not have to ask many questions; John answered the first one:

"Please, mother, she is up on the roof."

J. C. Myers of this office spent Sunday at his home in Ellinwood.
